#### The Result in the State.

We are yet without decisive returns of the late election in this State, and while we are not yet disposed to claim a victory for our side, neither shall we be in a burry to concede it to our opponents. We think there is no reasonable doubt that the Republicans have accured working majorities in both branches of the Legislature; and we believe that it will require the official figures to tell who wins on the State ticket. Such returns as we have received will be found elsewhere.

The Lexislature.

The SENATE consists of 30 members. Of these half hold over. The Republicans have certainly sixteen and probably eighteen members, giving them a majority. The Democrats have ten cen tain and will get two, or perhaps three more. In the ASERMELY there are 97 members and 49 is a majority. We have reports of the following

Republicans-Milwaukee 1, Kenosha 2, Racine 2, Rock 5, Walworth 5, Dane 3, Waukesha 4, Fond du Lac 2, Winnebago 3, Dodge 3, Jefferson 3, Columbia 2, Sauk 1, Marquette 1, Green 2, Sheboygan 2, Waushara 1, Waupacca 1, Iowa 1. Grant 2-total 47. Democrats - Milwaukee 8, Washington 2,

Ozankee 2, Racine 1, Dane 3, Waukesha 1, Fond du Lac 8, Dodge 3, Jefferson 1, Columbia 1,Outagamie 1, Marquette 1, Richland 1, Calumet 1, Lafayette 2, Iowa 1, La Giossa 1-total 33. To hear from 17 members, of which we think the Republicans will get from 5 to 8.

### A PILL FOR TAX-PAYERS.

A PILL FOR TAX-PAYERS.

Election being over, the Mayor and Common Mukwa Council proceeded, last evening, to levy the taxes for the current year. In consideration of the hard times, our Democratic rulers were good enough o add only about one hundred year's tax-roll! We hope that our Democratic Tax-payers will enjoy the fun of footing this little bill.

### The Light Vote.

Returns from the country towns continue to show a heavy falling off in the aggregate vote of last fall and a proportionate reduction, of course, in the Republican majorities. The Janeaville Gazette save that the Republican vote is full 1. 000 short in Rock County and in Walworth the decrease is nearly as large. The Democratic vote is also much less than last year, but the diminution is nothing like so large as on the Republican side. It the result of the election is adverse, it is for the single and simple reason that nearly one-third of the voters of the State did not go the polls.

The Madison Journal, alluding to this state of things, says:

things, says:

We have all along faared precisely what has occurred. The people were wearied by the political excitement of last year. It was next to impossible to arouse any enthusiasm or even interest. The times are hard. Men feel poor.—Each man thought his neighbor would vote; that there was no danger; and that he might safely remain at home at his work. And thus, very likely, the election has gone by default, and Wisconsin—though thoroughty Republican at heart—stands apparently committed to the ultra proslaveryism of the Buchanan Democracy. They are soldiers unworthy of the cause—they are interest. are soldiers unworthy of the cause—they are luke-warm friends of freedom—they are feeble and ineffectual toes to slavery—who, though the times are hard, will not give up a few hours to keep up the organization of the party of freedom for the great struggle of 1860, and to swell into an emphatic No, the response of the free North-west to the Dred Scott decision, and to the Bu-chanier construction of the Constitution.

## A True Bull.

We need not say that the result of the late election is yet doubtful; but we ought to say, what is the truth, that if the Democrate have won the victory, they have won it by steady and persevering effort; while if the Republicans have lost, it is simply because, despite all warnings they have relied upon the large majorities of the past two years, and staid at home in sufficient numbers to leave a clear field for a party which was disposed to work. We copy below the remarks of two of our Republican exchanges on the subject. They express our opinion exactly.

From the Janesville Standard It actually seems as if a large portion of our epublican friends after having so overwhelming-ly won the field, had made up their minds that ly won the field, had made up their minds that they could hold the vantage ground once obtained without further effort. They do not appear to realize that they have to combat an ever vigilant loe, a loe that watches their supileness and is ever ready to take suvantage of it. We have no doubt but the thousand Republican bovers in this county who staid at home last Tuesday, really left as it timer vote would not be needed, and incretone they had better stay about their business and do up their full's work. "Why," reasoned they, "we had thirteen thousand nuiporta last fall, and it is impossible for our opponents to overcome that; so as one vote will make make but listle difference, why need we take such extraordinary pains to poll every vote?" Fatal reasoning! It has a, thousand times proved faliacious, and yet men still chirg to the dangerous celusion, and will not let even sad experience teach them better.

But there is no law in this state to compel men to vote, and after having solicited, begged and subtracted them to do viet dat they will they will be a viet to a viet of they will they will be they and they will be a viet of their days and they will be a viet of their days and they will be a viet of their days and they will be a viet of their days and they will be a viet of their days and they will be a viet of their days and they will be a viet of their days and they will be a viet of their days and they will be a viet of their days and they will be a viet of their days and they will be a viet of their days and they will be a viet of their days and they will be a viet of their days and they will be a viet of their or days and they will be a viet of their or days and they are will be a viet of the viet of their or days and they are will be a viet of their or days and they will be a viet of their or days and they will be a viet of their or days and they will be a viet of their or days and they will be a viet of their or days and they will be a viet of the viet of their or days and they will be a viet of the vi

to vote, and after having solicited, begged and entreated them to do their duty, and they will not, let the consequences fall upon their own heads, and we will reserve our pity only for those who mantally worked for their country, but who have equally to suffer, the innocent with the guilty.

There has been no positive pro-slavery gain anywhere. The apparent gain in that direction is the result of the neglect of the Republicans to yote. The same story comes up from all portions of the country that we have heard from, As an

Instance, Fulton, in Book co, gave 67 Fremont majority last year. About 400 votes were then polled. This year, the same town gives 10 ma fority for Cross, and less than three hundred votes were polled. A gentleman who resides there, informs us that nearly every sham bemocrat voted, while large numbers of Republicans gent the day in digging potators. The same occupation, we learn, absorbed the principal portion of the Republican majorities in this and Columbia scounty; and, though we have not heard so particularly from abroad, we judge from the returns that a similar difficulty prevailed throughout the state. If the not does not seize upon the potatoes thus exhumed at the cost of a pro-slavery triumph in Wisconsin, our skepticism on the subject of special providences will be immensely strengthened.

A special meeting of the Common Council was d on Thursday evening. A quorum being sent, the Mayor called the Council to order. lderman Jennings presented a petition repreting the impropriety of purchasing a new ma ne for Engine Co.No. 2, at the present time and sating the Council to consider the matter seusly before granting the petition of this Co.for a engine. The petitioners assert that the chine now used by No. 2 is quite new, and made as they requested it at a beavy expense the city, and that it is as good as the aver-

of engines in use here. The petition was referred to the Committee on Fire Department to whom the petition of No. 2

has also been referred. --- No. 2 is one of our oldest and most efficient Fire Companies, and if, as the members assert, and we think they ought to know, their machine is almost useless, it would certainly be good pol icy on the part of the city to procure them a new

one.— A communication from the contractors of the Chesnut street bridge was referred to the Finance Committee.

A resolution to establish the salary of the First Assistant Engineer at \$300, was laid upon the table.

A communication from the light house keeper relative to the light on the pier at the new harbor, was referred to the Harbor Committee. A communication from the City Attorney in relation to the petition of A. Ehlebracht and others, asking the Council to prevent any alteration on River street from the way in which it was originally platted, and which was referred to him as to the power of the Council in the matter, was at his recommendation referred to the commission-

The committee on plats reported favorable to accepting the plat of O. B. Hopkins' sub division of lots 58 and 59 of section 16 the Sixth

Ward, which report was accepted. A committee of one Aiderman from each Ward was appointed for levying the taxes for the year 1857. Aldermen Bast, Cotzhausen, Jennings, Taylor, Conrad, Keuhn, Mallocy, Hayden

and Hoehen on the committee.

There being no other business before the Board, the Council adjourned to Friday (last) evening to hear the report of the Committee appointed to levy taxes, in each Ward, for the present vear.

New Job Office.—Messis, Enviso, Berdice & Co. open their new "Ben Franklin" Book and Job Office, on Monday next. It is located in the third story of the "Phoenix building, corner of Eastwater and Michigan streets, in the rooms lately occupied by the Daily American. Messrs. Enving, Burdick & Co. have ample facilities and the requisite skill and experience to do all kinds of printing cheaply, expeditionaly and well. We wish them an ample measure of publie patronage.

FIRST BAPTIST CHURCH.—Rev. Dr. PYPER WILL deliver on Sanday morning (service commencing at 10 to'clock) the second of his series of disconvees on the "characteristics of the times, as seen from a bible stand-point." Theme of the discourse, Infernal Spirits.

Wo learn that Mr. A. J. Davis and wife will be here on Sunday next, and will lecture at Albany Hall; Mr. Davis at 101 A. M., and 71 P. M., and Mrs. Davis at 21 P. M. Those desirous of hearing them can now have an excellent opportunity. Admittance 10c.

THE THEATRE.-There was a good house at the Theatre last night upon the occasion of Mr. Miller's benefit. Mr. Miller is an excellent commedian, and we are glad that he received a substantial testimony of the public appreciation of his merit. Metropolitan Theatre has become one of the institutions of our city, and under the good management of Mr. McFarland it is doing well, notwithstanding the wonderful " hard

times."

There is a rich bill offered for this evening in which Messes. Mulholland, Johnson, Miller and McFarland appear. Mr. Mulholland takes the part of "Tim Moore" in the laughable farce of the 'Irish Lion," and Mr Johnson as " Pillicoddy" n the play of that name. Mr. and Miss Miller appear in the drame of "Sam Patch in France," There is now one of the best companies in the country playing at Metropolitan Theatre, a fact which admirers of the drama should bear in

MILWAUKEE: SATURDAY MORNING, NOV. 7:

THE MORMON OUTLAND,"-The News of yes breaks ground against the "Mormons, whom it denounces as "outlaws" and calls upon the Federal Government to extirpute. As long agosa June, 1850, the Republican Party put itself on record against the Mormon iniquity, in the platform adopted and promulgated by their National Convention. They therein resolved " that the Constitution confer, upon Congress sovereign power over the Territories of the U. S for their Government, and that in the exercise of that power, it is both the right and the imperative du-ty of Congress to prohibit in the Territories, those twin relies of barbarism. Staveny and

POLYGAMY. Such is the doctrine of the Republican Party in regard to those twin monsters, Slavery and Polygany. "Sham Democracy" on the other hand, holds that Congress has no right, or authority to interfere with the "domestic institutions" of the Territories, but must-leave these to be regulated by "Squatter Sovereignty.". How then can Mr. Buchanan, consistently with the Baltimore and Cincinnati Platform, the Bred Scott decision, or his own Connecticut letter, undertake to regulate the "domestic institutions of Utab, any more than he can those of Kan-Or upon what ground of political principle can the Mormons be denied the right to establish "Polygamy" in the one territory, when the · Border Ruffians" have been openly encouraged to establish Slavery in the other.

Gov. Walker Under Ban. The rejection by Gov. WALKER of the infamously fraudulent election returns from Johnson and McGhee counties, in Kansas, has brought his head in peril. The Southern papers are clamorous against him, as are some of the Dougaface organs at the North. The New York Day Book, which is the leading organ of " National

Democracy" in that city, thus speaks:

"Whatever may be the final action of the Precident upon this matter, there can be no doubt it has greated a greater commotion in the Cabinet than any other act of Gov. Walker. This dilemms for the President's consideration is a very distinct one. He must either abandon the terms of the organic law of Kanesa, or else he must condenne Gov. Walker. That llaw gives Gov. Walker no power to act in the manner of the common of the carnot stay in Kanasasany he must resign. He cannot stay in Kanasasany le must resign. He must resign le must Democracy" in that city, thus speaks: doubt it has greated a greater commonation in the Cubinet than any other act of Guv. Walker: This diferents for the President's consideration is a very distinct one. He must either abandon the terms of the organic law of Kansas, or else he must condemn Gov. Walker. That law gives Gov. Walker no power to act in the manner he has. He spaint therefore he removed, or he must resign. He cannot stay in Kansasany the testing the forestelled the good common at he must resign. He cannot stay in Kansasjany Il-nger, for he has forfeited the good opinion of the Democrats of the Territory, and his continuance there will involve the country in an agitation which will endanger the success of Mr. Buchman's Administration, and fairly roud asunder the Democratic party.

The New York Tribune of Tuesday last contains the following paragraph in reference to this We last evening received from a reliable pri-

vate source the following dispatch :

Washington, Nov. 2, 1867.

Our readers may remember that last week the telegraph brought us a similar report, which the News treated and denounced as manufactured for electioneering purposes. But the New York papers of Friday contain confirmatory evidence that the report was substantially true. The public will watch the event with no little interest. Let us see it President Buchanan will go so far,

SLAVERY IN OREGON!-No less than five of the Democratic papers in Oregon have come out openly in favor of establishing slavery in that Territory. They boldly advocate the expediency of making it a Slave State under Mr. Buchapan's administration. The Republican papers, of course, oppose the infamous project, with all the influence which they can exert.

A LOUD CALL -- Epaphroditus Ransom, an old Michigan whig, very much of a tossil in politics, went from that state to Kansus, where he turned up as caudidate for delegate to Congress on the pro-slavery democratic ticket. THE KANSAS HALP-BREED LANDS .-- The Attorney General of the U.S. has recently given his opinion that against all other individuals or combinations of individuals, the title of the Kansas half breeds to their lands is perfect and absolute, and under the treaty the Indians may claim security in their reservations, through the protection of the United States, by the highest sanction; and "that no white man, without authority of the President, has a right to set his foot upon an Indian reservation." The whole force of the Government should, in the opinion of the Attorney General, be exerted, if necessary, to vindicate the good faith of this Treaty. MICH. SperHERN R. R. Co .- The recently ap-

pointed Executive Committee, consisting of John B. Jervis, President, and John C. Wright, of Schenectady, H. Sibley, of Rochester, Roswell Burrows, of Albien, and R. Gardner, of Detroit, Directors; made a report to the board Friday, giving the results of their examination of the arious roads belonging to the Company.

They state that a reduction in salaries is to be made, and some 500 employees discharged The number naw in the service of the Company, is 3.065. These reductions will cause a saving of \$40,000 per month.

NEW YORK BANK NOTES CANCELLED .- In the State of New York from the first of September to the 1st of October inclusive, the day on which the banks suspended specie payment, the amount of notes of State banks returned and cancelled was \$5,321,108. The stocks currendered in exchange for these bank notes amounted to \$3,656,957 and the bonds and mortgages to \$732,262-the total amount of securities thus surrendered being \$4,839,219.

TRICES UPON THE CUBANS .- The Spanish pa pers notice the arrival of flour from the United States, but they do not say that it landed only long enough to obtain somehow a Spanish brand and then is reshipped to Cuba, thus avoiding the heavy duty upon flour coming to the latter inland district from the United States.

The total value of property lost was six HUEDRED AND BIXTY-THREE THOUSAND, THREE HUNDRED DOLLARS This is the value of the property totally lost, exclusive of damages to vessels not amounting to a total loss wand of partial loss of cargo. The wessels reported in the list are chiefly American though some foreign are included—when bound to, or from a United States port, or known to be insured in this country

The summary statement of the losses for this car shows a loss of four hundred and eighty-Boven vessels, valued, with their cargoes, at fifteen million four hundred and twenty-one thousand and six hundred dollars. This is the loss on our own commerce: If we should add that of England, France and other maritime countries, the amount would be predigious. The losses for the several months were as fol-

The Adopted Citizens in Ohicago. The Adopted Citizens in Chicago.

The splendid victory schieved by the Republicans on Tuesday is largely due to the powerful as distance rendered by the naturalized citizens. Without their aid a very different result would have followed the count of the ballot boxes.

Three classes of adopted citizens are generally overlooked; but they cast several hundred Republican votes. We mean the Protestant Irish, the Scotch and the English. They are so much like the American born in language, feelings, and manners, that they are hardly distinguishable from thom. Scarcely a man among these people supported the so-called Democratic tickes.

Counts for the deathy hosting.

But the largest assistance to the Republican ticket came from the Germans. They mustered full as strongly as they did for Frement last fall. Quite a number who yound for Buchanan will write that ticket no more, and on Tuesday joined hands, hearts and ballots with the Republicans. The Democratic leaders made a tremendluss of the resulting the Republicans of the Republicans.

An Interseting Anniversary.—This day, October 29; is the anniversary of Washington's visit to Salem'in 1789. Our correspondent "O." whose store of reminiscences is so exhaustless, has favored us with the following communication nas favored us was in relation to this event:

Sixty-eight years ago to day, President Vashington left Boston for Marblebead, and Sixty-eight years ago to day, President Washington lett Boston for Marblebead, and from Marblebead came to Salem, proceeded through Court street to Federal street, thence to Boston street, and, at Buffun's corner, Friend Wm. Northey, chairman of the Selectimen, says:

"Friend Washington, I am glad to see thee, sadd in helaff of the inhabitants of the town of Salem, I bid thee a hearty welcome." The writer of this, hat off, in front of Major Joseph Sprague's house, at the corner of Dean and Essex streets, heard Washington say: "Put on your hats my men, you will get cold." Washington rode the same black man, William, was with him at this time. Washington slept in the chamber and the same black man, William, was with bim at the south-east corner of the brick house of Joshu Ward, now owned by Dr. Flak. I went down on the morning of the 30th, and saw him down on the morning of the 30th, and saw him Joshua Ward, now owned by Dr. Fisk. I went down on the morning of the 39th, and saw him mount his horse for Everty. On the right hand near Beverly bridge, Washington stopped at the window of a house and talked with John Symonds, who was then 99½ years old. At Beverly, he stopped at the house of Col. Israel Thorndike and from thence went to the Cotton Factory in Beverly, near Baker's tavern. From thence he took his departure for Portemonth. The next day, on the upper road, he took his departure from Portsmouth home to Mount Venion.

N. B. A few years ago, I was telling that Wusshington stopped to talk with Mr. Symonds, and the widow of Capt. Samuel Skerry told nic that she was in the room when Mrs. Symonds, was asked to stand at the window to see Gon.

General Scott and General Pillow. A second letter from Gen. Scott, in reply to the groundless and grantitous attack of Gen. Pillow, will be found in to-day's paper. It leaves the aspiring Tennesseean in a very deep ditch of his own diggiog, and that, as usual, on the wrong side.

This curious phenomenon is not without precedent. Dr. Franklin mentions the case of a man who was standing in the door of a house in a thunder storm, and who was looking at a tree directly before him; when it was struck by lightning. On the man's brust was left a perfect diagnericovers of a tree.

In 1851 a magistrate and a miller's by were struck by lightning near a poplar, true, in one of the provinces of France; and upon the breast of each were found exactly resembling the leaves of the poplar.

the Metal-Founder of Munich. When King Louis 1, had formed the resolution of erecting a collossar statue of Bavaria, it was Schwanthaler whom he charged to execute was Schwanthaler whom he charged to execute the work. The great artist's conception responded to the idea which had grown in the mind of the king, and in three years time a model in clay was formed, sixty-three feet in height, the size of the future bronze statue. The colossus was then delivered over to the founder to be cast in metal. The head was the first large portion that was executed—While the motal was preparing for the cast, a presentinent filled the master's mind that, despite the exact reckoning, there might be insufficient materials for the work, and thirty owt, were added to the bathliquid and thirty cwt. were added to the baf-liquid mass. The result proved how cortinate had been the forethought: nothing could be more successful. And now the chest of the figure was to be east, and the master conceived the bold idea of forming it in one piece. Those who have seen thirty or forty ewt, of metal rushing months mounted below, have perhaps started back affrighted at the fiery stream. But 400 cwt. were tequisite for mis portion of the statue; the formulation provides the constitution of the statue.

initiable nature of the undertaking may be col-lected from the fact that till now, not more than 200 cwt. had ever filled a furnace at one time. But see; the mass begins slowly to melty huge picces of camon float on the surface, like bosts on water, and then gradually disappear. Presently on the top of the mass a crust is seen to form, threatening unager to the fund brounds.—
To prevent this crust from forming, six men were sampleded day and night in stiring a lava-like saw with long poles of non-retring, and being replaced by others every now and then; for the sample fund in stiring a lava-like sample funds to the stiring and being replaced by others every now and then; for the sample funds in the stiring and being a specific funds of the sample funds and the sample funds and the sample funds are sample for the sample funds and the sample funds are sample for the sample funds and the sample funds are sample for the sample funds and the sample funds are sample funds and the sampl scorching heat in spite of wetted coverings, caus-ed the skin to crack like the dited rind of a tree. setting the strain spite of whether beverings, caused the skin to crack like the difed rind of a tree. Still the cauldron was being stirred, still the fire goaded to new efforts, but the mutal was not yet ready to be allowed to flow. Hour after hour went by, day passed and the night came on.— For five days and four nights the fire had been kept up and urged to the utmost intensity, and attil no one could tell how long this was yet to last. The men worked on attreir tremendous task in silence; the fearful heat was increasing, and as though it would never stop. There was

ture demanded repose, and he sat down to sleep. Hardly had he closed his eyes when his wife aroused him with the appalling cry: "Awake, awake! the foundry is on fire!" "Awake, nwake! the foundry is on fire!"
And it was so. Nothing could stand such terrific heat. The ratters of the building began to burn. To quench the fire in the usual way was impossible, for had any cold fluid come in contact with the liquid metal, the consequences would have been frightful; the furnace would have been destroyed, and the 400 cwt. of bronze lost. With wet clother, therefore, the builting ratters were covered to smother the flames, but the walls were glowing too: the whole building now was like a vast furnace. Yet still more fuel on the fire! the neutal boils not yet! though the ratters burn, and the walls glow, still leed, and gorge, and goad the fire!

At last the moment comes! the whole mass is boing! Then the metal founder of Munich.

At last the moment comes! the whole mass is boining! Then the metal founder of Munich, Miller by name, catled to the men who were extinguishing the burning beams, "Let them burn; the metal is ready for the cast!" And it was just midnight, when the whole of the raters of the interior of the building were in flames, that the plug was knocked in, and the fiery flood rushed into the mould below.

All now breathed more itsely; there was an end of misgiving and foreboding; and the rudd workingen, as if awest tack by what they had accomplished, stood gazing in silence, listening to complished, stood gazing in silence, listening t the roar of the brazen contract. It was not ti the cast was completed that the signal for ex-tinguishing the burning roof was given by the
